EXPERIENCE

O.C. Tanner

Principal UX Designer, Design System & Design Operations

May 2022 - Present

- Coordinated with local and international development and design teams to build and contribute to the design system
- Developed a rotating engineering contribution process, to reduce number of tickets in the backlog
- Maintained and improved the existing design system

UX Design Manager, Design System

May 2021 - May 2022

- Managed and lead a team of 5 UX Designers
- Acted as lead designer for the design system
- Created and implemented a department wide design & development review process, resulting in better cohesion between UX designers and software engineers

Senior UX Designer

September 2019 - May 2021

- Redesigned the user experience for the O.C. Tanner's 300 million dollar Yearbook product
- Partnered with the product team and software engineers to implement improvements based off user research
- Initiated and conducted user interviews and tests

Ancestry

UX Designer

September 2018 - September 2019

- Created customer journey maps
- Brainstormed, designed, and prototyped new feature ideas
- Designed icons and page elements
- Developed and conducted user research for various concepts
- Designed multiple features through the Ancestry product, and worked with developers to implement

Sorenson Media

Web & Graphic Designer

March 2016 - May 2018

- Designed websites for several companies
- Created multiple, award-winning brand identities, user interfaces, and marketing materials in web, print, and email

EDUCATION

Utah State University

Fall 2013 | BFA with an emphasis in Graphic Design

SKILLS

- Figma, Sketch, Adobe Creative Suite
- Designing for both B2B and B2C products
- Conducting user research and testing
- People and process management
- Knowledgeable in HTML, CSS, and Javascript
- Ability to articulate and communicate design strategy
- Excels in holding design reviews, including receiving and giving critique and feedback
